

Product & Service Data Sheet

Testing Package : GreaseCheck™ 821

Applications : Recommended routine analysis for equipment such as
Bearing Grease
Gear System Grease
Etc.

Testing Details :

GreaseCheck™ 821

Test includes

- RDE Fine Wear Metal Elements (18 elements)
- RFS Coarse Wear Metal Elements(11 elements)
- FTIR Spectroscopy
- % water
- Ferrographic Analysis
- Report with Interpretation

This Test Package apply

Note : The above recommended testing package will be as guideline ,the suitable test package may be vary depend upon right application , environment severity, critical factor , machine age, so on .

Sample Quantity : 250 grams

Report : GreaseCheck™ Oil Analysis Report provide

- Displayed an easy –to- read and understand
 - Information for wear condition, lubricant condition and contamination
 - Interpretation and Recommendation of the result result option for bilingual
